# Family Satisfaction and Staff Warmth Survey Results

A huge thank you to everyone who participated in this years Family Satisfaction and Staff Warmth Surveys. We had record positive results for both surveys.

We are excited to share that 100% of families who completed the survey are satisfied with the home. 100% also reported that staff care about the residents, and that the staff members are respectful to the families.

We also seen significant increases in a number of categories for our Staff Warmth Survey, including close to a 20% increase for the question “Leadership listens to me and takes my opinions seriously.” We also seen a significant increase for safe working conditions, as well as almost 90% of staff would recommend a close friend to our staff.

**Please look forward to receiving the full results!**
